On October 10, 2018, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The deal is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The transaction will be funded from Roblox's 'new business' funds, which aim to expand the company's offerings including VR, augmented reality and mobile.

I love Roblox, but there are some things that I don't like. My favorite aspects of Roblox are that it's fun and easy to play with my friends online, and it has funny ways of making you laugh or feeling nervous. My least favorite aspect is that if you use your neighbor's computer (turn it on/jack in) you can't change your username or skin. Also, there are players who break laws such as swear words, so they get banned from Roblox for doing so. I don't think Roblox should be edited at all, but just taken off.

On January 24, 2010, ROBLOX released a new version 3 logo to replace the one that they had been using since 2008. The new version of the logo still has no color in it; however, it now uses vector graphics, as opposed to bitmap graphics on previous logos. This new logo also included a small R inside a circle which represents ROBLOX's focus on imagination and creativity.
