ROBLOX has banned thousands of accounts, usually for viral videos made by "trolls" or people who want to annoy other users/admins. Most of the bans these users receive are handed out by administrators but every once in a while a user will get banned for a "troll" video or similar reason. Some are also apparently banned because they made potentially offensive comments in the chatbox, not for any type of post or action that breaks the TOS.

The free robux card codes are the cards that were given out to players who completed a certain action on Roblox. The player would then be able to collect the card and have it autoclaimed as soon as they logged into Roblox. Codes could be used to redeem the extra Robux and Builders Club. Codes were received through several different ways. Players could receive a code from a friend, or they could get a code from the internet. Codes were sometimes given out for certain reasons, such as attending conventions for Roblox (ROBLOX RocketCon) or writing about Roblox on your blog/website. Codes are autoclaimed when you log into your account on ROBLOX.

On September 10th, 2019, Roblox introduced a new 'Creative' game mode. It is an improved version of the current 'Build' mode where there are more blocks to build with and the ability to save your progress at any time.[105]

Free Robux Codes Exploit Sites These are sites that use exploits in the game coding to allow players to get free Robux without needing to use a code. Many of these sites also have viruses/spyware/malware inside them, so be careful when visiting them. Most of these websites are created by people who do not know how to program and may be extremely buggy or cause your computer harm.

Users can report a game if they feel like it does not follow the rules. Either the game will be deleted or the owner will be warned, but most of the time the game is deleted. On January 5, 2017, a legacy avatar called Trollface became unusable because of DMCA claims from its artist. As such, ROBLOX disabled all avatars that use his artwork. It was later re-enabled after copyright claims were retracted.[39]
