What is a Minecraft Server List? – A Minecraft Server list is a list of servers that you can use to connect to. In order to use one, all you need to do is type in the IP address or host name and then choose one from the list that appears. If you are using a Bukkit or Tekkit server, then there will be some connection issues that need to be sorted out before connecting directly through the IP address or host name. For more information about this, please refer to our article on how to connect to your minecraft server here."

How To Download Mods – The Basics. Before downloading any kind of mod, be sure that you know exactly what kind of mod it is. Mods differ from one another in many ways and although they appear similar there are some fundamental differences as well, even if they look not yet obvious at first glance. For example, there are many different kinds of mods and these are generally divided into those that add new blocks/features to the game and others that change the game's existing rules."

What is Minecraft? Why should I run my own Minecraft Server? By setting up your own Minecraft server, you can set the rules of the game - and invite all of your friends to play with you. One final mod that is easy to install is a custom graphics pack. This mod will make it so that all of your favorite characters, items, and even textures will be able to be added into Minecraft from this point forward. You can also use different models and even mobs to make a new game that will be unique to you. This is a great mod if it is something that you are looking for."

Minecraft Servers are generally run on either a physical server or a virtual private server (VPS). A physical server hosted by the user and rented from third-party companies, ISPs, universities etc. or free services like NFOservers.com, Adverline.pl and VirtualRack.co.uk which are VPS's seems to be the most common way to host your Minecraft Server. A VPS or physical server is better for most, since it is more stable and customizable and can be set up to run on the same machine as the player's computer allowing for an instant jump in to a server when desired."
