On January 31, 2018 ROBLOX introduced Community Plots. These plots were originally planned to be released on June 30, 2016, but were delayed. However, they came out on January 31 as "Floating Skyboxes". These plots are a way for ROBLOX users to make money from their creativity and imagination. You still use Robux for them. On July, 2018 ROBLOX introduced the Free-to-Play Game Pass that allows new players to play online games without having to pay ROBUX.

While this may be true for some cases, there are some individuals who make these videos just to deceive users into thinking that they have found a way in which they can get free robux for their accounts. This is usually done by editing the time stamp, making it look like they have gained several thousand dollars' worth of free robux within a short period of time.

On July 3rd, 2018, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.

The 100Robux app has been designed for the people who are looking to make money and earn in-game currencies, such as Robux, through online ads and offers. This would be a way for gamers to make money off their skills by building up their game and having other users purchase in-game currency.

ROBLOX first came out in September 2006 when released the first version of their game Roblox Studio (similar to Scratch). This was the original creator of ROBLOX and was developed by Jason "Akile" Akilecz (JAMASOF) from October 19 to November 5. This is the first fully 3D program for ROBLOX. The original name was "Roblox", but it was changed due to a copyright lawsuit. The name was changed to "FunRoblox", and in 2008 the "Fun" part was dropped to make it simply Roblox.
