Versions of the game have been released for iOS devices, Android devices, and desktops running Mac OS X. The main idea for Coin Master was first conceived in 2001 by Mike Miller, who had previously made games that pitted wizards against each other using fantasy-themed cards similar to ones used in "Magic: The Gathering". Miller was unable to find a developer to make what he saw as a "simple version" of the game, however, and so the idea went on to sit on the shelf due to lack of interest in the market at the time.",

In March 2017 Moon Active announced that a version of Coin Master was available for download on the Samsung Gear VR virtual reality headset. This version of the game was developed in partnership with Samsung and is based on their hardware (Samsung Galaxy). The game's description states that it is a "virtual reality experience" and that it allows users to "take full control of the adventure".",

In 2018 Moon Active released Coin Master for Apple iOS and Google Android as a paid app (\$3.99) that can be downloaded from Apple App Store and Google Play Store respectively. This version of the game is ad-free and has all future updates to Coin Master included in the price of the app. The developer stated that he hopes to release new updates monthly through 2019.",

They're is too many ads by hannah_dew on 2018/02/01 00:08 I love this game but they are so many ad. It is very really annoying when I am just trying to pass my time and it makes me really mad. The game takes up all of the space in your phone as well. If it weren't for all of the ads this game would be a 5 star it's unfair that you make it a super hard game and then have like 50 ads after one level. I think that you should make the ads less frequent and add more features or make your levels easier if this is going to happen then please tell me so I can see your update. I am a huge fan of this game",

It's a really good game by Smooshie on 2019/01/13 17:05 The game has great rewards and I like how it helps with your brain and teaches you math which is pretty cool because it shows you some cool patterns. The problem with this game in my opinion is that there are glitches in the app where if you get attacked your back gets "stuck" to where it can't move away from there. Also I think in my opinion of the game after you get used to it and learn all the moves it starts getting easier and boring. Also with the coins, I feel like there should be some free ways to make more money without having to pay real cash. Like when you log on or maybe even watch some videos for more coins. Overall it's a really good game.",
