In 2014 Moon Active launched a Kickstarter campaign asking for \$8,000 to help progress development of Coin Master on PC platforms. It reached its target and the developers also received additional funding from a Jewish organization to support their work developing "Coin Master". A Minecraft version of Coin Master was also created by Mojang (Minecraft) in 2015, which is available to players free of charge via Minecraft Realms.",

Some users have also criticized the game for not being as user friendly as other games. The developer justifies this by saying that they don't believe in making their game overly simplistic, but do plan to release more tutorials. It was also stated that the game does not include any missions or goals outside of getting coins and killing enemies. However, the developer states that he is working on adding goals into the future.",

The game has received multiple awards and honors from independent media publications including being awarded "App of the Month" on TouchArcade in June 2016 as well as receiving the "Best Game for Kids" award at the 2017 TMO App Awards. It has also been nominated for multiple awards from leagues such as The GBA Awards in the Best Gameplay, Best Social Game category and was named one of "America's Top iOS Games" by Mashable in November 2016.",
