Great app, but... by Anubis_In_Da_Club on 2013/11/27 15:02 I love this game, but I hated the fact that you had to wait a while until you could start another game. It was very frustrating. Overall, it is amazing! It's my favorite game because it's not like every other puzzle word app there is out there.",

You are able to unlock new levels by reaching certain levels of XP (experience points), with these levels being effectively allowing you to bank more fish (which cost 1 coin each), and spinning more wheels at one time. There are also achievements which can be unlocked. The achievements can range from getting a certain number of fish to completing a mini game with a certain amount of coins in the time limit. The achievement badges you earn contribute to your level, which is displayed next to your name and player ID on the stats page, and contributes 20 XP per badge. You also receive some XP each time you bank fish or spin a wheel. You are awarded coins based on how many XP you have gained throughout playing the game which can vary from 2-10 gold coins per 100XP depending on how much XP you gained that day.",

The table was released for PC and iOS on December 18th, 2016. The full version available for purchase is the enhanced mode featuring 20 additional levels as well as the arcade mode which contains 60 additional levels. The Android version is planned to be released in January 2018.",

Loving it by Mrs_Dew101 on 2018/07/22 05:18 I wish that I had this game when I was in middle school and they used to make you wait to play all day instead of letting you play the game that you have on you phone. So this game has helped me a lot and I am loving it! And the diamonds are super useful and can help with building up my bakery. The only thing is that sometimes the game doesn't show me what I am supposed to be doing. I try to click a diamond and nothing happens. And then when I go on the internet and check my bakery it shows without me even buying anything! It has happened with so many things like clicking something to take a screenshot and then when I open the app it doesn't take anything of what you should have clicked but instead just shows what you already have on your phone! So please fix that so more people can enjoy this game. Thank you!",
