The graphics in Coin master are relatively basic, but they are bright and colorful. The game is based on the concept of a treasure chest, which is where you keep your coins. The coin master himself is a bearded pirate who is dressed in traditional pirate attire, and his second in command (who helps you collect gems) is an orange fish wearing a top hat and a monocle. Another big feature of the game is that you have your very own pet fish which follows you around while helping to collect coins for you - these pets can be unlocked by reaching certain levels or using gems to take care of them. Their names are Chippy, Daffy, and Popeye - the latter two can be different depending on which pet you have unlocked.",

On January 11th, 2018 United Pixelworkers announced via their official website that they had partnered with game publisher Bethesda Softworks to develop a new mobile game based on "The Elder Scrolls V: Skyrim". It is currently in development and will be viewed as a spin-off based on the "Coin Master" and "Coins & Curses" games. It is scheduled for 2019. The trailer was later released via Bethesda's official YouTube channel on February 12th, 2018.",

Loving it by Mrs_Dew101 on 2018/07/22 05:18 I wish that I had this game when I was in middle school and they used to make you wait to play all day instead of letting you play the game that you have on you phone. So this game has helped me a lot and I am loving it! And the diamonds are super useful and can help with building up my bakery. The only thing is that sometimes the game doesn't show me what I am supposed to be doing. I try to click a diamond and nothing happens. And then when I go on the internet and check my bakery it shows without me even buying anything! It has happened with so many things like clicking something to take a screenshot and then when I open the app it doesn't take anything of what you should have clicked but instead just shows what you already have on your phone! So please fix that so more people can enjoy this game. Thank you!",

"Coins & Curses" received mostly positive reviews, with reviewers generally praising the humor and simplicity of the game. It currently holds a Metacritic score of 81/100 for iOS, 82/100 for Android and 86/100 for PC.",
