Great by I'm horrible at this on 2013/01/27 01:34 This app is really fun and addictive, but it has a lot of adds and if anyone knows how to get rid of them or change the amount of them I would be very thankful. Also, I don't care if you have to pay for the in app purchases like some games do, but sometimes it's annoying to see an add when you're almost done with a puzzle."

The Android version of Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" can be played both offline and online. This version of the game contains advertisements which can be removed by paying \$2.99 for an ad-free version. This version of the game has been downloaded over 1000 times and has a rating of 4.0 out of 5.0 on the Google Play store."

"Coin Master App" is an iOS and Android freemium mobile application released in 2016 by United Pixelworkers LLC. The game centers around the player acquiring random Minecraft-themed cards through an in-game card pack purchased through real-world money. The game has a 1 in 4,000 chance of appearing on a player's mobile device. The "Coin Master" Twitter account posts new activity and awards every couple of minutes."

On January 10, 2018 GamesBeat published an article that mentioned a new release titled "Coin Master: Poke Map" was being developed by United Pixelworkers for the iPhone. The game is available for iOS devices in beta form as of February 2018 and is free to download from the App Store. This title is an alternate version of "Coin Master" where players can view the world around them (using real location coordinates) and find loot based on their current location within the game. It also includes a newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures". An article on the website says that the game was created to satisfy the desire of players for a Pokemon Go style experience with "Coin Master: Dig Deep".

A spin-off title for iOS devices called "Coin Master: Dig Deep" has been released by United Pixelworkers and is available to play online on any compatible browser or directly through an app designed for iPad, iPhone and iPod Touch. This title was released as a limited time premium version with more in-app purchases which included more levels and content. The PC version of this title has also been released on Steam and is available to download directly from within the Steam application or from its store page. This title is similar to "Coins & Curses 2" except that it includes more in-game content."
