Good game by Kiyaa on 2018/11/14 17:12 This game is fun and addictive and perfect for passing time but there are some glitches with the game. First off, when an item goes out of stock, you can spend hours or days trying to get back into the item. Secondly, the cheating needs to be fixed. You can see when someone has low health and attack them. They have the option to block you, but they can still win. There is nothing you can do about it. Third, the spells and potions aren't really useful. The spell usually only goes through to your opponent one time so that's pointless. The potions are also very expensive and don't really do much of anything for you. Lastly, I would like it if there were some way to get more coins because when there are special items that cost 1000 or more coins I have to spend an entire day saving up for them. It really gets old once you get more coins than everyone else.",

At its launch it had received over one million downloads on Google Play alone. In addition to this milestone it has also been downloaded over 1 million times on Steam and over 1 million times from iOS devices including iPad, iPhone and iPod Touch at its initial release. The mobile versions of the game have had over 10 million downloads to date.",
