In February 2013, Roblox was in violation of Terms of Service that required them to have a minimum age requirement for players.[72] In December 2016, ROBLOX temporarily suspended monetizing accounts and purchases of game currency within their website after it was discovered that many users had been cheated out of money. It is known that they worked with third-party vendors to purchase a limited amount of Robux for specific accounts.[73]

One of the reasons why Roblox has become such a big hit is because it lets you play with your friends in a virtual world that is full of adventure. It's not just for kids either, but especially for teens and adults as well because there are tons of things to do in here. It is a place where you can have fun and meet new people online. Most importantly, you can learn a lot of skills since Roblox has so many different games and places to visit.

In 2010, they added an in-game browser which allows players to purchase resources with Robux from other players (mostly games). In 2014, they changed their website to a Flash-based platform. On November 11th of that year, the company finally launched their mobile app for iOS and Android devices.

Please make a map creator way better than the one in game just because it's not as organized. There should be more detail to every single item. Make an option that if you move your mouse over an item it will tell you what that is and how to use it and everything else about the item.

On January 2nd, 2019, Studio 2.0 was released to the public.[92] On January 7th 2019, ROBLOX announced that they would be releasing a more complex version of this feature in the near future. On January 16th 2019, ROBLOX released "Studio 2.1" which contained many minor fixes and new improvements.[93] On January 20th 2019, ROBLOX announced a new script where users can use to test their games if they have any performance issues. They also stated that there has been complaints about laggy games on their website that causes players to lose interest in playing them.[94]
