On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

Another generator worth mentioning is the Robux Investment App . This is also an app that sends you robux once you've uploaded a video to YouTube. However, it actually requires you to invest in the application to receive robux. When you invest \$5 USD or more, the Robux Investment App will send out 100+ free robux per month for life!

Roblox is a multiplayer online platform for young people to create their own roblox. One of the features that the app can offer is the ability to speed hack. For example, if you've been playing for a really long time and want to go into the game room before it ends, you can use this feature to speed hack before anything interrupts your game session. Roblox allows you to have complete control of what happens in a game or app by integrating new APIs (application programming interface).

When it comes to this premium feature, the player does not have to pay for membership in the Builder's Club (which is free) or spend money on Robux or Builders Club credits at any point during gameplay. All they have to do is purchase the premium feature and be in a Builders Club account.

On July 1, 2018, ROBLOX began making all of its games free-to-play with a subscription option called "Roblox Pass" that allows users to keep playing their favorite games without having to pay anything after their trial period is over. It will be put on a student's school/work computer and will include ROBLOX STUDENT only games (e.g. ROBLOX High School & ROBLOX High School Life). The "Roblox Pass" feature is only available to users on the official ROBLOX website and all other versions of the game will have to be paid for.
