When it comes to this premium feature, the player does not have to pay for membership in the Builder's Club (which is free) or spend money on Robux or Builders Club credits at any point during gameplay. All they have to do is purchase the premium feature and be in a Builders Club account.

The way Roblox works is by creating an account. In this account, you will be able to make your own avatar that you can customize to look however you want it to. With this avatar, you can go on to explore the different places and games in Roblox. You can interact with other players that you meet in the game and even chat with them. There are many different categories of games that you can choose from to play and I like this because you have a lot of options to choose from. One thing that I think is great about Roblox is that you do not need to pay any money to play it all the time. This is because you can buy Robux in order to use it for building purposes or for upgrading your avatar. This is great because rather than just paying and continuing to play, if people don't want to pay they don't have to.

In January 2015, the official Roblox Studio 2 was released on Steam. It allowed for cross-platform development with Windows 10. However, any existing games made with the previous version (R-Engine) will not work with this new version since it uses a completely different engine.
