Although many games on ROBLOX are free, some with "premium" features, others require money for certain features. One example of this is when the players can buy exclusive items that are only available for purchase through Builders Club membership.[53] Before March 2010, premium features were known as paid-for items. As of March 2010, all premium items in a game are referred to as "Builders Club Premium."

Implementing technology such as Oculus Rift and PlayStation VR would allow the company to create new VR games. Again, ROBLOX has been criticized due to its unusual (less than the minimum) end user license agreement. Roblox has released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

One great option is to use your own money to buy robux. This may not seem like an appealing idea at first, but it can provide you with a lot of benefits that are easy to obtain. If you have extra money on your hands, then you should definitely consider investing in robux. Once you have collected enough virtual currency, stop using it and wait for the value of robux to increase over time. With the amount of time that passes by each day, you will see a good return on investment within a few months.

On January 13th, 2019, ROBLOX implemented broader anti-fraud features called "Secure Trading." The system is designed to prevent fraud such as fake accounts/bots, selling stolen virtual currency and more. It is also designed to allow users to trade in a safer environment. [28]

During the time when Roblox was first being developed (2004–2007), there were a small number of games created that were designed to troll or harass other user accounts on the game platform. Trolls could take advantage of the limited moderation tools and exploit loopholes in the "Terms of Service" and "Community Guidelines".
