ROBLOX has been criticised for not allowing users to report other users who are abusing others or who are being abusive in their games. There have been a number of times where users were able to exploit this and harass other users without consequence. This was especially common on the server "The Plaza", where certain accounts were able to retaliate against other players with no restrictions.

ROBLOX has support for other game engines such as Unity 3D in its games (as seen in "Roblox Community Crash Arena Turbo Stars") and supports creation of games mainly through the use of its Studio application. ROBLOX also has their own scripting language known as Lua. The use of Lua allows users to create their own game modes.

I just wanted to let the readers know that Roblox is not a bad thing for children to play. It teaches them a lot of skills that will help them in the future. It teaches them how to be helpful, creative, and patient. I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game!

Safe for kids. The Roblox website has a large system dedicated to ensuring that all content is safe - filled with age requirements and parental controls to provide protection from inappropriate content being found and viewed by children playing the game online. This is a great safety feature that provides peace of mind for parents looking to let their children play on it. Requires an internet connection to play. This is a small downside and something that can be fixed by using a Wi-Fi connection.

Rated 4 out of 5 by Anonymous from I love this game it is fun but it isn't free because there are so many things to buy. They charge money but it's worth it because there are a lot of things to buy. Rated 4 out of 5 by Anonymous from It's great! I think ROBLOX is the best because it gives you a chance to do things you've always wanted to do like: create pizza, save people, and much more. It gives you a fun time with your friends and family. I'm sure you will love this game.
