On September 8, 2018, ROBLOX released an update that added a "New Games" section to its website. This section is separated into sub-categories for ease-of-navigation and new content coming soon. This section also functions as a "curated library" with all games listed in a searchable manner (e.g., "roblox" will bring up any game about ROBLOX, but "roblox experiment" won't).

In 2012 the company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (Watsi). This was called Roblox Builders Club: Mutliplayer Tournament which raised over \$6,000 for charity water.

Roblox was revealed as the top website for malware infections in the U.S.[74] And as of 2015, it was accused of having more malware downloads than any other website in the world.[75]

Users can report a game if they feel like it does not follow the rules. Either the game will be deleted or the owner will be warned, but most of the time the game is deleted. On January 5, 2017, a legacy avatar called Trollface became unusable because of DMCA claims from its artist. As such, ROBLOX disabled all avatars that use his artwork. It was later re-enabled after copyright claims were retracted.[39]
