"Coin Master App" is an iOS and Android freemium mobile application released in 2016 by United Pixelworkers LLC. The game centers around the player acquiring random Minecraft-themed cards through an in-game card pack purchased through real-world money. The game has a 1 in 4,000 chance of appearing on a player's mobile device. The "Coin Master" Twitter account posts new activity and awards every couple of minutes.",

Good but annoying by Mudda on 2015/04/04 20:05 I really like this game except for the fact that there are ads every time you do anything. You can also only have one game completed at a time otherwise if you put it down to go do something else and come back you have to start all over with your puzzles again. There are plenty of achievements to unlock and challenges to prove that you're the best!",

This includes one pack of characters exclusive to the game, three packs that can be shared between both versions of "Coins & Curses" (PC and mobile) and a pack that is exclusive to "Coins & Curses Adventures". The character packs are:",

Great game by Coolmomo2 on 2013/04/25 18:50 This is an awesome word game! It is just like any other word game out there except for one thing. You can play multiple word games at a time. I like that because it doesn't make you feel like you have to stop playing just to start another game. It is my favorite word game right now. I love it!",
