ROBLOX has been criticised for not allowing users to report other users who are abusing others or who are being abusive in their games. There have been a number of times where users were able to exploit this and harass other users without consequence. This was especially common on the server "The Plaza", where certain accounts were able to retaliate against other players with no restrictions.

The Free Robux promo codes for ROBLOX are offered by popular developers, companies and game developers or designers when they have an effective way of giving them value. These codes are simply provided as a way for them to make more money because they can get different types of profits. This will allow them to make more money for the different games that they have created and the ones that they will create in the future. They also want their codes to be used so many times.

As a result of these allegations, another employee named Kent Duryee filed a lawsuit against Roblox in March 2018. Duryee claims that he was also wrongfully fired by Roblox after attempting to report misconduct at work earlier in 2017 but nothing was ever done about it. The lawsuit, which is currently still ongoing, is asking for \$5 million in damages and \$1 million in lost wages.

The site has been called "worthless" by users such as Brianna Wu, an independent games programmer and activist. She was also specifically referencing the site's lack of any kind of real economy.[10] There have been multiple instances where money and donations were sent to ROBLOX asking for some kind of update on a game which never came to life. She has asked for the company to be more transparent in regards to this situation and stated that she will not give them any more money until they actually deliver something.

In August 2016, Roblox announced that they would be offering their service in China. ROBLOX later confirmed that they started to accept users from China in September 2017, during beta testing.[62] Due to Roblox's popularity on Steam Greenlight, they were removed from the platform as of October 17th, 2014.
