How about having a system where you can trade other players items and for their items you can trade them.. and also it would be better if someone was able to get ban for inappropriate activity but at least it would give them an option to choose from and no one should be allowed to use excessive exp which is currently going very bad in the game... How about aswell have a better chat message system as well as on roblox the roleplay activity is pretty dead....

On May 31st, 2019, ROBLOX released an update to their engine which brought along a new physics engine known as "Bloxlet". This engine can be used in nearly all of ROBLOX games and will allow players to play in one of the three different modes: Classic ROBLOX mode which is using the older version of the physics engine from ROBLOX that was introduced on June 12th 2018, Bloxlet mode which uses the new physics system introduced on December 18th 2019, and Customized mode which allows users to customize their own physics setting. It is unknown whether or not this feature will be maintained through future updates.

Implementing technology such as Oculus Rift and PlayStation VR would allow the company to create new VR games. Again, ROBLOX has been criticized due to its unusual (less than the minimum) end user license agreement. Roblox has released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

This should be more than enough for anyone out there to use if they need some methods for getting free robux on roblox and without having to spend any money. I would definitely recommend using this, as this will be more than enough for you to start enjoying getting free robux on roblox right away!

Reddit - There are quite a few forums and subreddits for Roblox, but the one I personally recommend is /r/roblox. It got started years ago and continues to be one of the best places to go on Reddit when it comes to Roblox information. They have a subreddit attached to each game, so you can always find information right where you want it.
