Throughout 2008, ROBLOX released a handful of new products including: "Virus Assault", "Prophet", and "Super Bomb Survival". "Prophet", released in August 2008 was essentially a demo for "Super Bomb Survival" which was released in November of the same year. ROBLOX started to develop more games in 2009, including: "Boom Boom Speedway", "Pirate Invasion", and a brand new version of "Dance Off". On February 6, 2009, ROBLOX launched a new game named 'Gladiators'. This game was one of the first games where being shot by another player would cause damage towards your avatar. It also included characters that could attack back.

On May 29, 2015, ROBLOX decided to stop giving out high-quality builder's cards to anyone who has one of these cards, making it no longer possible for them to build long games on ROBLOX. This was the first time that high quality builders clubs were ever taken away from people who had them. On July 15, 2016, ROBLOX re-enabled the old low-quality builder's club and added another high quality builders card which can be used by anyone without making their game longer than 30 days. This update helped in the new Club Builder's Club Builder's Club Update which gave people who had builder's cards prior the ability to make their ROBLOX games longer.
