When playing games on ROBLOX, users are given virtual currency called ROBUX that they can use to buy accessories for their character like hats, shirts, pants, and gear. On March 3, 2014 at 9:00 pm, ROBLOX announced a new app allowing users to use their iPhones or iPads while playing with friends on ROBLOX. They also announced that new features were being added to this existing app.

What I do is take advantage of the events and plan out everything that I want. Once the event is over, I will just go to the Marketplace and wait for it to load. I will then go to the Marketplace and set my price at the lowest price that it can buy for a weapon, then I will wait for a few days. During this time frame, I have been able to sell everything that I have in order to get free robux. And also, you are able to see how much time the event would take depending on how many people enter.

On March 18th, 2019, ROBLOX announced that they were working on a system that would allow them to detect bot accounts and confiscate accounts from them.[31] On April 25th, 2019, ROBLOX announced "Secure Trading" again as they would require players to use their respective Facebook page accounts for trading purposes. As of June 15th, 2019, ROBLOX will still allow customers from around the world to trade with other users without requiring Facebook. [32]

Due to its age, ROBLOX games often contain bugs and glitches; it can be difficult to get rid of these glitches. Some users have even taken to modifying the game engine to bypass some of these bugs, as well as creating their own games and uploading them to Roblox without permission.
