On February 4, 2016, Roblox announced that all "Spam" accounts would have their control access taken away for 24 hours. This was done following a warning sent out on January 20th.[69] Spam accounts created prior to August 10th 2016, will receive a permanent ban on February 5th.

In the ROBLOX Studio game, you can publish a game that contains the Free Builder's Club item and make it for sale. You will receive 50% of the profit from every sale (however, if someone buys your item and then buys it again later on with their own Robux or Builder's Club, you will not receive any more money).

Rated 4 out of 5 by Anonymous from Pretty good game I think this game is pretty cool and it has really good graphics and it can actually teach you various things such as math and reading. I think it is a good app for anyone who loves online games.

ROBLOX has also been compared to popular game Minecraft. In many ways, they are similar; both games have been developed by one company (Tencent) and are usually sold on the same platform (Windows, OS X, iOS, Android). Another close similarity is that they both have their own in-game currency system. However, Minecraft has a different style of gameplay relating to platforming; while ROBLOX players build and destroy using building blocks, Minecraft players explore a world.
