ROBLOX also allows people to manipulate the games in an unfair way; they can do this by changing the difficulty level of a game or removing potential players from playing a game. They also can sell cheat codes on their website. This is similar to the "scams" created by advertisers in that they are selling cheats for an unfairly high price (such as \$2.50 USD) so that only people who pay will be able to use the code to cheat or hack the game. However, this is an unfair way of making money.

On May 26, 2018, a group of former Roblox moderators started a petition on change.org asking for Roblox to re-hire them after they were fired. The petition currently has over 8000 signatures and the former moderators were promised that they would be getting jobs back at Roblox if their petition reached 10,000 signatures.

As a Roblox developer, you have the advantage of being able to learn new things from other people's games. You do not need to start from the scratch because there are thousands of ongoing games that you can play and then copy. There are many ways to make money on Roblox since it is a free app. You can make money by selling your skills as a developer, becoming an affiliate, making money through advertisements or charging for certain items in your game. You can also make Robux by doing roblox sponsored ads.
