The ROBLOX site and forum have received a lot of criticism from its users regarding many issues, such as: Administrators are able to delete user-created games without warning or notice. Users can't defend themselves since the only way they could do so is by contacting an administrator or lawyer. Administrators can ban users for doing anything they don't like or don't agree with. However, administrators have been known to ban users for no reason at all, usually if the user is a moderator or an insignificant/low-level user.

Throughout 2008, ROBLOX released a handful of new products including: "Virus Assault", "Prophet", and "Super Bomb Survival". "Prophet", released in August 2008 was essentially a demo for "Super Bomb Survival" which was released in November of the same year. ROBLOX started to develop more games in 2009, including: "Boom Boom Speedway", "Pirate Invasion", and a brand new version of "Dance Off". On February 6, 2009, ROBLOX launched a new game named 'Gladiators'. This game was one of the first games where being shot by another player would cause damage towards your avatar. It also included characters that could attack back.

On July 10th, 2018 the game was removed from the ROBLOX website and replaced by a non-game item called "Anthem". It is unknown why it was removed. On November 15th, 2018, ROBLOX released a new work-in-progress game on Steam named "Anthem". It was revealed that the company decided to release this new version of the game after listening to many negative comments about its original version.[89] On November 23rd 2018, it was announced that the game would be released for free for everyone due to its many issues.
