Roblox is a video game platform created by American programmer David Baszucki in 2006 as a social game for children ages 8 to 13. The game is free to play, but contains some limitations like the amount of characters and objects that can be placed in a single game.

According to a report by SuperData Research, Roblox had an estimated 5.7 million monthly active users in 2018. The report states that their statistics were based on the call records of around 1 million Android users who are under 13 years old. In their report, the company estimated that 6% of their users were under 12 years old. The reported monthly active users also included those who played Roblox on a daily basis. Their estimate was 14% and they based this on the number of days that players spend playing Roblox on any day. In addition, the report also stated that 32% of their players were in North America and 29% were in Europe.

The game is not very challenging. Even though there are a lot of games available on it, there isn't much in the way of difficulty. This is a big negative in my opinion - especially for older kids who love to face tough challenges such as some video games on the market now which can sometimes be really difficult and where you have to wait for many hours in order to even pass the game. This might be a problem if you are playing with smaller children - some games on Roblox are known to last for days or weeks before they finish. My 6 year old absolutely loves Roblox and games like this are great for that age group. If you're looking to play with kids older than that then I'd suggest looking at something else. There is some violence in the game, but nothing major (for example you can only fight by swinging a sword or shooting a gun, rather than hand to hand fighting) and it's all in the context of a game. Overall we love it and it was worth the money!

A group of Roblox players petitioned against the aforementioned avatar update for over two years before it was actually implemented. The change, in which the user could add or remove tattoos to their avatar, would allow them to earn more money as these tattoos could be sold to other players. Since some controversial tattoos were associated with this feature, some users were vehemently against the implementation of this change.

This is one of the most efficient and reliable sources for free Robux in Roblox. It has been tested many times by other players, and they have been quite satisfied with how fast and effective this cheat is.
