"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. This game has so much potential, but in its current state I can only say this about the game...  
"It had promise."",

Fun, but.. by Aqueela on 2014/12/14 12:46 First of all, I love the concept of this game and, as an avid puzzle solver, I enjoyed completing the puzzles needed for each level. The game has some great features such as timed puzzles, word hints and more. However, I do have a few criticisms. First of all, the ads are sooo annoying! I've downloaded over 10 games in the past 2 weeks and every one of them had to be deleted because of the ads. Secondly, I was kind of annoyed with having 2 sets of tiles in a level then receiving new tiles from the previous board when you complete it. Finally, the timed levels were not that challenging and could have been better developed (so that you could make mistakes without losing time).",

"Best game ever! I love that you can play with friends anywhere, even when not connected to the internet. This game is so worth playing because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money." "This is one of my favorite games because of the different levels and how easily it takes all my free time. I think it would be more fun if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money."",
