One of the reasons why free robux users are falling victim of hacking and account deletion is because they let their friends know that they have free robux promo codes. They share these codes and often forget the fact that they should never ever share any information that could possibly help someone hack or delete your Roblox account. If you feel like you would like to tell a friend about this, but just do it privately, just make sure to use some sort of security when checking the inbox for messages. You should also make sure that you do not use the same username or password on any other website or accounts.

On September 10th, 2019, Roblox introduced a new 'Creative' game mode. It is an improved version of the current 'Build' mode where there are more blocks to build with and the ability to save your progress at any time.[105]

This doesn't really have a name, in order to get free robux on roblox simply open the shop, buy one of the cheapest things that is available and then go to your inventory. You will notice that for some reason, you have been charged 2 tickets (which are used to place an item in the shop) and that you have 1 robux left.

The site is very buggy due to the fact that user-created games are made in such a way that users can alter almost every aspect of any game. However, this has upsides too as users can fix most bugs themselves. They have often been taken down because they are "offensive". This is hard to believe since the site has been around for nearly 10 years. ROBLOX allows people to advertise on their site for just about any product they want and will let them earn money with it. However, this can be considered a bad thing in some cases, as advertisers can create "scams", such as charging people \$5 dollars to create a game that can only be played by Admins or other users with unusual settings/roles.

From June 12th 2018 to July 30th 2019, the Roblox network was under a major DDoS attack from a group called "Apophis Squad". This group was demanding that Roblox pay 10 million US dollars into their Bitcoin account or they would continue to perform DDoS attacks on the site. They also threatened to kidnap staff members and steal their hair if ROBLOX declined their offer. According to Roblox, this group caused 3.7 million dollars worth of damage.[103] The group also began sabotaging ROBLOX's YouTube channel by uploading offensive videos and ads towards users who clicked on it, which caused the platform to ban the channel in July 2019.
