In 2014, ROBLOX created a partnership with the National Football League (NFL) that allowed users to make digital representations of each NFL team and play Madden NFL in-game tournaments. This has created an online community for Madden fans to play against other players across the United States and Canada. On April 30th 2018 ROBLOX released a new version of its app called Ava. Ava serves to help players craft more interesting games from their favorite video games and cartoons. ROBLOX is the only stop-motion animated game where players can make their own characters in a game and then animate them. Ava has features such as a desktop workspace, a top toolbar that allows users to interact with other Ava users, and a snap menu that allows users to snap any two blocks together to create new shapes or new objects.

All you have to do is just follow the instructions provided and after a few minutes, you will be overwhelmed with a lot of robux. ROBLOX has been criticized many times since it's creation. Many users have been dissatisfied with ROBLOX's in-game currency system which involves real money transactions. The price of things such as hats and shirts can be absurdly high, which causes some users to scam others out of their money. This can discourage people from making positive contributions to the game due to its poor reputation among many players.
