Robux are the primary currency in Roblox. They can be used to purchase a variety of clothing, accessories (such as hats and T-shirts), tools, gear (backpacks, jet packs, and recovery kits), armor (vests and helmets), vehicles, special movement abilities (for example flying or invisibility), decals (decorative symbols which can be placed on vehicles or buildings) and more. The minimum one-time purchase of Robux is US\$4.95 (\$5 Note: this price has been around since 2013 but was not posted until 2015). Many items require substantially larger sums to afford them.

"Robloxian life" has actually changed how people view games now. People used to spend hours and hours in games without even noticing that time has passed because they were involved with the game's world. Suddenly, they realize their time is running out and that no one is helping them out for example.

I have always wondered why people enjoyed playing Roblox so much. I think it's because it's very similar to Minecraft in many ways; for one thing, the graphics are very childish which got me interested at first. Because the game is customizable, you can choose to look at the world through a little boy's eyes or that of an adult. I chose to be an adult for a time, but it was always hard to play because it would become so boring. But at some point when I was playing Roblox, my interest in it started to fade away. The reason for this is because of the new updates they made to Roblox. Now there are so many advertisements everywhere and so many games being added every day. You never play with friends because everyone has their own account and their own games they are playing. Even if your friends are on, you have no idea who they are because they could just be anyone.

Over the years, ROBLOX has used advertising to generate revenue for their company, which they generate through in-game purchases (microtransactions) or advertisements (which can be annoying for the players). In addition to this, they also generate revenue through selling virtual items (like the aforementioned Builders Club and ROBLOX Credit). The company has also released several games like their top grossing game "Build a Buddy". ROBLOX has been criticized for its lack of funding from advertisers as well as allowing other companies to make games on ROBLOX. The company has been criticized for their children friendly ads which are designed to be easily visible by children but are very inappropriate for them which is seen as a breach of the COPPA (Children's Online Privacy Protection Act) and their end user license agreement, although ROBLOX has since changed its policy. The company also uses an "Ads on the Web" program where they can serve certain types of ads depending upon a player's age and location.

The next games that would allow users to invite others into their worlds were Habbo Hotel where they had their FriendBook and later on also added a FriendChat system in December of 2011, Club Penguin where you could invite fellow penguins into your world, and Mario8 since 2014.

ROBLOX is the first game to allow players to create actual games that you can play online by using either a physical controller or just your keyboard. [124] The next game that would allow users to do this was Parkour Paradise on August 16th of 2012. [125]
