Users can report a game if they feel like it does not follow the rules. Either the game will be deleted or the owner will be warned, but most of the time the game is deleted. On January 5, 2017, a legacy avatar called Trollface became unusable because of DMCA claims from its artist. As such, ROBLOX disabled all avatars that use his artwork. It was later re-enabled after copyright claims were retracted.[39]

On April 27, 2018, ROBLOX released its own virtual reality headset on their website known as the "ROBLOX Visor." The headset is created in collaboration with Carl Zeiss AG. The headset has a retail cost of \$99 USD and comes with an HD screen capable of playing 2D and 3D content. The headset was also officially launched at E3 2018.

In January 2013, the Chinese government started an investigation into various MMORPGs to determine whether the genre was suitable for children.[58] The same year, Sigaty discussed the possibility of a Battle.net-like service for World of Warcraft.[59]

On June 26th, 2018, ROBLOX CEO John Hanke made an announcement on Twitter that the company would be removing the ability to create avatars for users within games and requiring new avatars to be created instead. Once this update was implemented however, users were able to create new models based on existing ones and preserve them as a template which they could then upload into games alongside their original avatar. This update was to lower fraud within the site with copyright infringement and promoting copyright infringement by bypassing game mechanics by allowing users to create avatars of other users' games.[21]

Premium game mechanics can also be implemented in free games. However, due to the fact that all premium features are only available in Builder's Club, in most cases they will if there is no way for the developer to observe this from a third-party mod or script perspective, then it can only be done via a Builders Club Premium [63].
