Some other ways that these generators get more traffic is through sending out promotional codes on social media sites like Twitter or Facebook while also using email marketing techniques.

On September 5th 2018, ROBLOX targeted a large amount of its users by adding in-game ads on most games for free. Players would be given an ad in the bottom right corner of their screen with the option of clicking it to see more games. This is very similar to how Facebook and Google ads work, however, the Roblox ads cannot be clicked on and are only meant as a distraction. Users would need to leave the game before seeing the ad again or wait until they lose interest in playing any other game. The new system was rolled out in large parts making users question ROBLOX's integrity as a company.

On April 13, 2016, ROBLOX partnered with Nintendo to release a catalogue of upcoming Nintendo Switch games. On June 18, 2016, ROBLOX partnered with Rockstar Games to release an online game based on Grand Theft Auto V. The game was released on July 2 for both PC/Mac and Android devices. The iOS version of the game was made available in December 2016. In October 2017, ROBLOX also launched their version of PayDay 2 which is now available for iOS devices. 2018 also saw the partnership with Activision to promote the release of Call of Duty: Black Ops 4. In addition, iOS users would be able to play Black Ops 3.

In March 2017, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2017 Halloween game The Mad Murderer.[38]

The only way that these items have any value is if developers add more to the game and make them items that are actually worth something within your virtual world. If that happens then these fake items will be worth even more than what you paid for them originally because the developers added real content to the game.
