In 2014 Moon Active launched a Kickstarter campaign asking for \$8,000 to help progress development of Coin Master on PC platforms. A Minecraft version of Coin Master was also created by Mojang (Minecraft) in 2015, which is available to players free of charge via Minecraft Realms.",

Coin master is an online only slot machine-style game which can be played anywhere in the world as long as you have an internet connection. The aim of the game is to earn new coins while playing mini games such as "slide or splat", "tap the fish", or "striped fish swim". These games are short, only lasting 20 seconds on average. The purpose of each game is to collect as many gold coins and gems which are the two main currencies in the game. The coins you collect may be used to spin the wheel when you have a "wheel spin", and the gems may be exchanged for clothes, backgrounds, or other items such as achievement badges which contribute to your level. There are also very small amounts of other currencies in the game such as diamonds, but there is no use for these at all.",

Nice game by leonard1101 on 2017/12/27 22:34 I just got this game and even though I have not made much progress, it is fun to play. I like playing it at night because when you win it can be exciting. You can make all kinds of things happen with the farm and you will get better as long as you keep playing. Overall I would give it a five star rating but there are some things that should be changed one is that I would like it if we could buy more energy to play longer or if the maps were bigger so we could build more things in them. But besides that this game is fun and entertaining. I would recommend this game to anyone that likes farming or strategy games!,"
