On October 10, 2018, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The deal is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The transaction will be funded from Roblox's 'new business' funds, which aim to expand the company's offerings including VR, augmented reality and mobile.

If you do not want to go through any complicated process, then I would recommend using this method. This is one of the most reliable ways that anyone can use in order to get free robux on roblox right away, so it should be a good choice for some players out there!

Roblox has been criticized by parents for issues such as allowing players to have relationships with other users through the game, and allowing players to (unsuspecting) "friend" hackers. Other criticisms include consuming large amounts of bandwidth, and not being child-friendly. The site has been removed from school computers in order to protect children.

Roblox has been accused of being an unprofitable company that does not pay royalties to its players. One of the users who quit Roblox because of this issue is a user named "Ezthero," a former moderator for ROBLOX's forums. Some others have also left the website after they learned that ROBLOX would get more money from their games if they did not sell them. However, Roblox has said that they do pay royalties to their users but only to those with large fanbases who are able to earn a lot from their games.

On March 22nd 2018 a father claimed that his young son was being harassed by online predators on roblox. His son was given what he believed to be an authentic phone number for support from roblox but it was actually a phone number for an adult service in California called "Spunky".
