On September 8, 2018, ROBLOX released an update that added a "New Games" section to its website. This section is separated into sub-categories for ease-of-navigation and new content coming soon. This section also functions as a "curated library" with all games listed in a searchable manner (e.g., "roblox" will bring up any game about ROBLOX, but "roblox experiment" won't).

In order to get free robux for roblox without having to spend real money, this is one of the best applications that should be used by all of the players. It will work perfectly without any problems so there is no need to worry at all. The generator only shows up a few ads after you have connected your account with it as well but it won't be a problem for most of the players since it only shows up a few ads anyways.

The main reason why this kind of methods work is because of how long they have been active. This hack helps hundreds of players and they can now play for free by using the Robux generator tool. If you want to know how it works and how to use it then join our facebook group to get the information on how great they are and how you can make some extra bucks selling items for other users.

Community: Roblox has an active community of players. A group of these players have joined together to create a group called ROBLOX Users as Leaders, or RUL. This group has made several YouTube videos on what they expect the future of ROBLOX to be. For example, there was a video on RO-NT (Roblox On New Technology) which was released in 2013. The main purpose of this is to improve ROBLOX so that it can match the technological advances that have been made since 2012, including 3D technology and mobile platforms, such as Android and iOS.

In March 2017, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2017 Halloween game The Mad Murderer.[38]
