There are tons of items added in Minecraft hack. These are many blocks like iron doors, chests with loot and much more. There is also other accessories like armor and weapons for your character to use for fighting zombies and monsters that you find or create while playing on multiplayer servers. These weapons and armor can be crafted on a crafting table, while you can create different types of traps with some simple items found in the game.",

Most weapons can be crafted using a combination of two items from the metal and wood category. For example, a pickaxe is constructed from a stone pickaxe and a piece of metal, and is more powerful than both types of weapons combined. It has an increased durability when compared to stone or metal alone but it also takes longer to craft as well as requiring more resources than either a stone or metal item would by themselves.",

The worst part is that, there are no anti-cheat systems in Minecraft, so you can just hack all day and night and the server owner will be fine with it. However, this is not recommended because of the consequences you might suffer from when you have a moderator or admin to kick or ban you out. If you want to obtain the same advantages of cheats, but don't want the risks associated with cheats, then try using mods instead. Unfortunately, pro players who get banned for cheating will use ban evading methods which will allow them to bypass bans or avoid detection from server administrators. Many servers have picked up on this and started filtering IPs for known cheats and ban evaders.",

There are lots of different chat plugins available for Bukkit servers. Some use the built in chat system, some add new commands, some even change the way you can do chat. These plugins all work differently; so it really depends on what you want your server to achieve and how much you want to spend on a plugin that will get it done for you.",
