Roblox has been criticized by some users for their use of Facebook data. In April 2018, a report by CNBC claimed that they were able to track user's Roblox activities on Facebook using this data. This included the number of times that they left comments and how much time they spent in a game.

On August 15, 2017 (12:00 PM), ROBLOX released a new website design. This redesign adds a many features and improvements such as new search function, expanded news section, easier access to games and groups/communities, expanded mobile version of the site, ability to message anyone on the website regardless of whether they are a user or staff/trade with users without the need to add them first (members must have this feature enabled), expanded trades panel with detailed card information, ability to cancel trades before they are completed when there are no funds involved on either side of the trade to prevent scams that involve giving out items for free and getting items or money in return but never giving back the items that were given.

ROBLOX allows users to design avatars for themselves and use them in games. ROBLOX also provides users with tools that help them create a variety of designs for their characters which they can upload on the website to share with others. On January 30, 2014, ROBLOX launched an app that allows users to buy hats, shirts and pants for their characters. This is another first-of-its-kind feature on the app store as many apps do not allow people to buy virtual goods like hats or shirts. ROBLOX allows players to make full custom outfits for their avatar character that can be purchased with virtual currency via the app store by linking your account with paypal when purchasing.
