At the end of a game, players can view and edit their stats by using the "My Stats" link. This section of Roblox allows players to view data such as number of games played, experience points, badges earned and a few others. Players can only see this section if they have played at least one game online that day.

Roblox has been criticized for allowing other companies to make games on their site such as "Mining Simulator", which is a game that contains copyrighted material from BeamNG.drive, and "Brain Simulator", which is a clear clone of Brain Cube (which was also created by the same person who created Brain Simulator), and copyrighted material from several other games such as Robloxian Highschool and Backyard Zombies.

On August 15, 2017 (12:00 PM), ROBLOX released a new website design. This redesign adds a many features and improvements such as new search function, expanded news section, easier access to games and groups/communities, expanded mobile version of the site, ability to message anyone on the website regardless of whether they are a user or staff/trade with users without the need to add them first (members must have this feature enabled), expanded trades panel with detailed card information, ability to cancel trades before they are completed when there are no funds involved on either side of the trade to prevent scams that involve giving out items for free and getting items or money in return but never giving back the items that were given.

On June 16, 2012, Roblox filed a copyright infringement case against Games Done Quick and its game "The Maze" for using their characters and scenery without permission. On December 19, 2015, Games Done Quick settled with Roblox out of court.

This method is very easy to use, and it also comes with a novice-friendly setup as well. In my opinion, this is one of the best ways anyone can use in order to get free robux on roblox in a very short amount of time without spending any money.
