In 2016 Roblox sponsored an event at The Children's Museum of Pittsburgh to raise money for charity (Watsi). This was called Roblox Builders Club: Mutliplayer Tournament which raised over \$6,000 for charity water.

Roblox has been criticized for letting users access mature content, such as nudity, on the platform. In March 2018, it was reported that there were multiple nude characters on Roblox. The game had a character that was wearing only underwear. The character also had private parts that could be exposed to other players. This resulted in a large number of complaints being submitted to the company and they responded by making the character wear pants. However, the character then became fully covered and was unable to be exposed in this manner anymore.

On December 21st, 2011, the game "Infinity: The Quest to the End of the Universe" was released by a company called "Awaited Studios". After this game was released, it came to light that much of its code was being used in ROBLOX's main source code.

Roblox has been accused of neglecting its staff and failing to offer development positions to its employees because its staff is almost entirely composed of white males, even though Roblox's community has been growing in diversity for years.
