For example, Jailbreak offers a premium feature which allows players to purchase more life points. As the game is free, there is no way for them to gain XP in the traditional sense. Instead of implementing XP via cash or coin drop-rates (as would be done in a game that relies on premium features), they offer more life points as a way to make it easier for players if they choose to purchase them. Free games also don't have an option of offering premium features that modify their economies or XP systems. Therefore, they usually offer only the default system as an option for non-Premium members.
