On September 3, 2014 (8:00 PM), ROBLOX released a new website design and many changes to the graphic. The new design is much cleaner and easier to navigate. It also includes more screenshots of games, more user-friendly forums, better administration tools to keep track of groups and permissions for Moderators/Administrators, improved support for security questions/passwords, better notices on who has access to what information on the site, and improved support for email notifications.

The 100Robux app is really easy to use, and can be used on every device even without installing Roblox. The adverts are quick and easy to use, and the free robux is a great thing to get. All I would say about the 100Robux application is that it is simple and easy to use, even if you are not good at gaming. Also when using the 100Robux app, there is no risk of your account being banned or anything because it is just a game app.

On August 9, 2016, ROBLOX launched the first RoblEX game, called "RoblEX: The Lost Robots". A new currency was also introduced in this update called "RoblEX" (Robux in a different form). This was the first time that RoblEX were ever used. Before this update Robux were used on both games and non-games.
