Rated 4 out of 5 by Anonymous from Very enjoyable I love this game very much. Whenever I play it, it makes me feel like I'm in a fantasy land. It has a lot of fun games to play like the space adventures, castle defense and many others. I would say that recommended this game to anyone who likes to play on the computer or laptop or anything else with computers. Overall it's pretty good.

Users actually generally hate ads on ROBLOX, but they do them anyway for their own benefit and gain. Ads are actually a great way of generating revenue for ROBLOX, mostly because they only show up when you have enough money to be annoyed with the ads.

The "ROBLOX" logo was created by the company's CEO and founder David Baszucki in 1996, when he was originally designing the website's layout before it was launched. He designed the logo to look similar to the word "engine" on a train, as he envisioned ROBLOX to be a playground powered by an online community where users could create virtual worlds. The first iteration of the logo consisted of an orange square that displayed three green horizontal stripes, each separated by a white space. The stripes were arranged in a way that would yield nine pixels when all three were equally spaced. A basic version of the logo was used until 2003.

Reddit - There are quite a few forums and subreddits for Roblox, but the one I personally recommend is /r/roblox. It got started years ago and continues to be one of the best places to go on Reddit when it comes to Roblox information. They have a subreddit attached to each game, so you can always find information right where you want it.

In February 2018, it was reported that a game called "Miner's Haven" has been criticized by Roblox users for having a suicide feature where players would have the option of killing themselves when their health reached zero. The players who played this game received a message from the developer named Master Zen said that he was working on an update that removed this feature. The update was released in March 2018 and it included an anti-suicide feature where the health would reset to 100 instead of 0. However, the developer confirmed that he would "still allow players to commit suicide if they are in the mood". To make up for this issue, Master Zen released a series of development updates that included fixing bugs and adding new features to "Miner's Haven".
