How to Connect to a Minecraft Server – The way in which you connect to a Minecraft server depends on what kind of server you are using. You can connect directly by typing the IP address into your internet browser or the host name of the server. If you are using an individual private server, you will need to know an IP address of where your Minecraft Server is located. The easiest way that anyone can get this information is by going to their router's configuration settings and finding out the IP address given from them.
