There are many websites around the internet that offer useless and unhelpful information that are only for trying to get more traffic and clicks on their websites. And of course, they provide you with ad revenue as a reward for using their services. So we'll be using two such websites to show you how to get more free Robux

There were reports of auto-attack bots from a group called "ArtRage" which was hacked to attack other players in order to force them out of the game, and then to prevent them from ever returning. On April 12, 2014 there was a report from an Arianespace engineer that someone had been "hacking into rocket control computers and maneuvering vehicles on the ground". The players involved were reported to be ArtRage members.

On August 4th 2018, it was revealed that many well known ROBLOX users made fake accounts in order to copy their friends' progress. These fake accounts had the same username and picture as the original account owner but had no friends. Once these fake accounts gained a good amount of currency, they would join a game then buy the maximum amount of slots possible. The real account owner would notice that their account was missing and look at the fake profile's profile. While there were no friends, there were tons of transactions for items such as a \$100-\$150 purchase for 5000 robux. This could have been used to raise their reputation and potentially, make them more money.

No microtransactions. Roblox does not have any in-game purchases or microtransactions, meaning that you can play as much as you want without worrying about being charged each time. This works very well as the developers have a different way to monetize their system - which we'll discuss further on into this review.

The best thing is that you can get all of the wallets, tix, and robux for free if you start using any of the Free Robux promo codes for ROBLOX. This site has a lot of codes that they will give out from time to time and you will have the chance to get unlimited free robux when they are used. These are some of the best codes that can be used to enjoy playing Roblox and they will remain in use as long as Roblox has them available for players who want them.
