ROBLOX also has a wide variety of blueprints ranging from minigames to full games. ROBLOX's game engine runs within their own website, which they call the "Roblox Platform". The platform also has its own virtual servers that are separated between each user (known as Virtual Worlds). ROBLOX licenses the servers from Sabre Corporation. This means that the servers benefit ROBLOX and not any individual person or company. A private server is solely controlled by an individual and can only be accessed through the client provided by them.[33][34]

Community: Roblox has an active community of players. A group of these players have joined together to create a group called ROBLOX Users as Leaders, or RUL. This group has made several YouTube videos on what they expect the future of ROBLOX to be. For example, there was a video on RO-NT (Roblox On New Technology) which was released in 2021. The main purpose of this is to improve ROBLOX so that it can

match the technological advances that have been made since 2021, including 3D technology and mobile platforms, such as Android and iOS.

If you play "Robloxian life" long enough, you'll notice that the costs really add up. For every point someone wins, the game will cost the player between \$3-\$10 depending on how many points are needed to win a double prize. Although this is not completely true for all games, it does affect most games so players can expect to spend a lot of money just for some points or winning prizes.

ROBLOX has been criticised for not allowing users to report other users who are abusing others or who are being abusive in their games. There have been a number of times where users were able to exploit this and harass other users without consequence. This was especially common on the server "The Plaza", where certain accounts were able to retaliate against other players with no restrictions.
