Roblox has also been accused of terminating its staff whenever they speak out against the company's policies and poor work environment. This is mainly done to avoid negative media attention which would impact their business.

On December 4th 2018, ROBLOX added a new feature called "Workshops" to their website. The forums were flooded with many negative comments and claims that it was poor execution of a feature meant for building games. They were also accused of being lazy about implementing it into their website.

In ROBLOX, safety is one of the main concerns facing parents. The website can sometimes be a risky place for children because they sometimes come across people being rude, bullying, etc. [138]. ROBLOX is doing its best to make sure that its users stay safe while playing games. First, ROBLOX has safety features in place. A "report user" button is at the bottom right of every player's screen. This button appears if someone is acting rude to you in a game. Pressing it leads you to a page where you can add as much detail as you can about what happened and why it was wrong. The person reading the complaint will then investigate the situation and take necessary actions towards offending players. Players have also found ways to use this button for wrong reasons, like falsely reporting users to get them banned from playing ROBLOX.

How about having a system where you can trade other players items and for their items you can trade them... and also it would be better if someone was able to get ban for inappropriate activity but at least it would give them an option to choose from and no one should be allowed to use excessive exp which is currently going very bad in the game... How about aswell have a better chat message system as well as on roblox the roleplay activity is pretty dead....

This method is very easy to use, and it also comes with a novice-friendly setup as well. In my opinion, this is one of the best ways anyone can use in order to get free robux on roblox in a very short amount of time without spending any money.
