There are two ways of connecting to your server: first is by using a computer directly connected to the internet through LAN (Local Area Network) port, and second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",

Mods that change the world are more complicated to install because they usually add a lot of new blocks and features to your game. This means that mods actually have to replace your old world with a new one. So if you want to uninstall them, this is not possible without losing your world. This means you often have to back up your world before installing the mod so you can always go back if something goes wrong.",
