Minecraft is a sandbox game originally designed and created by Markus "Notch" Persson, and now developed by Mojang. It was publicly released for the PC on May 17, 2011, as a developmental alpha version and, after gradual updates, was published as a full release version on November 18, 2011. A version for Android was released a month earlier on October 7, and an iOS version was released on November 17, 2011. On May 9, 2012, the game was released on Xbox 360 as an Xbox Live Arcade game. The game allows players to build with a variety of different blocks in a 3D procedurally generated world. Other activities include exploration, resource gathering, crafting, and combat. The PC version of the game is published by Mojang. The Xbox 360 version is published by Microsoft Studios. The release of the mobile versions are handled by external publishers, such as Electronic Arts, Ubisoft, Warner Bros. Interactive Entertainment and Halfbrick Studios for iOS devices, and Mojang for Android. The game is currently available on all major platforms except Google Chrome OS.",

These cheats were not created by Facepunch Studios, but instead by third-party hackers who have obtained or reverse engineered malicious software intended for other games (usually FPS games) which include a variety of "aimbots" which target enemies for accuracy as well as automatically shoot them when they are within range - some of these tools can also detect pixel shaders within rust client and identify potential speedhacking.",

The specific hacks used by rust players are often used by other games, and as such have been modified to suit the needs of rust. Using these cheats can result in a game ban on the account in question, but as the game is still in early access this is not guaranteed. Facepunch Studios bans players for using cheats on their servers, however this does not apply to singleplayer and on private servers which do not use the official Facepunch credentials.",

Minecraft Mods Mods are simply additions which add new content to your game. For example, it could be an item that you can craft, a new game mode (an option like Survival or Hardcore, for example), a new texture, or something else. The most popular mods are the ones that add more stuff to the game. They're more popular because they're larger and can add more content to your Minecraft game. More Info Download: MINECRAFT MODS",

In addition to fighting other players there are also wildlife which can attack and kill players in certain areas of the map. The game has several biomes including forest, grassland and desert as well as others which vary in difficulty depending on both the amount and quality of resources available in that area.",

Players build a random world in which you aren't guaranteed the same biome behind every block. All the biomes can be accessed by "spawning" into them in survival mode through an anomaly. Survival Games Servers: Players complete a challenge and win prizes such as weapons, armor, unique items, etc - These servers are focused on playing mini games in order to win rewards.",
