The game is not very challenging. Even though there are a lot of games available on it, there isn't much in the way of difficulty. This is a big negative in my opinion - especially for older kids who love to face tough challenges such as some video games on the market now which can sometimes be really difficult and where you have to wait for many hours in order to even pass the game. This might be a problem if you are playing with smaller children - some games on roblox are known to last for days or weeks before they finish. My 6 year old absolutely loves roblox and games like this are great for that age group. If you're looking to play with kids older than that then I'd suggest looking at something else. There is some violence in the game, but nothing major (for example you can only fight by swinging a sword or shooting a gun, rather than hand to hand fighting) and it's all in the context of a game. Overall we love it and it was worth the money!

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.

In 2014, ROBLOX created a partnership with the National Football League (NFL) that allowed users to make digital representations of each NFL team and play Madden NFL in-game tournaments. This has created an online community for Madden fans to play against other players across the United States and Canada. On April 30th 2018 ROBLOX released a new version of its app called Ava. Ava serves to help players craft more interesting games from their favorite video games and cartoons. ROBLOX is the only stop-motion animated game where players can make their own characters in a game and then animate them. Ava has features such as a desktop workspace, a top toolbar that allows users to interact with other Ava users, and a snap menu that allows users to snap any two blocks together to create new shapes or new objects.

ROBLOX has an official YouTube channel. The channel shows animated shorts for the popular game "Abobo's Big Adventure". The videos are created by the user SamoDaCar as part of a deal with ROBLOX.[44] The videos are often posted by other YouTube channels that show other parts of ROBLOX games, such as "Meet Youtuber" and "ROBLOX Adventures", where SamoDaCar comments on his channel. There's also a show called "ROBLOX Top Model", which is a spin-off about girls who compete to be the next top model. The show is hosted by user and famous ROBLOX player Xmithic. There are 6 seasons in all, with a total of 35 episodes.[45]

ROBLOX was launched on March 9, 2007. ROBLOX later went under the name "Genesis". ROBLOX officially changed its name to ROBLOX on November 3, 2007. On March 15, 2009, ROBLOX's new style was made official. Then on March 22, 2009, a new logo was released for the first time since 2007. On August 7th, 2010 it went back to its original look. On February 23rd 2011 ROBLOX announced the launch of Minecraft Clone called Blockland. Then on May 19, 2011 ROBLOX announced it had launched a new engine. On December 18, 2011 ROBLOX announces a new game called Roblox City Builder.
