ROBLOX has been criticised for not allowing users to report other users who are abusing others or who are being abusive in their games. There have been a number of times where users were able to exploit this and harass other users without consequence. This was especially common on the server "The Plaza", where certain accounts were able to retaliate against other players with no restrictions.

You can't win. They're removing the only value in the game. When that happens it's going to turn into a giant useless wasteland of abandoned servers that will do nothing except make ROBLOX developers richer while people are kicked off for no reason because they don't have enough money to waste on fake money.

In February 2017, ROBLOX had \$3 million in revenue.[53] They had \$9 million in revenue in May 2017.[54] In February 2018, ROBLOX had \$16 million in revenue.[55] The list of minimum system requirements for running Roblox can be viewed here: System Requirements for Roblox (supports Intel HD Graphics 3rd generation or newer). All of the requirements listed are "minimum" requirements for running Roblox. Many people play Roblox on a computer with older graphics cards, or even without any GPU at all. Roblox can be run on many different operating systems, such as Windows, Mac OS X (Snow Leopard and below), and Linux (Ubuntu and below). It has also been confirmed that Linux can run ROBLOX.[56] The minimum system requirements for running ROBLOX on Linux are listed here: Minimum System Requirements for Running ROBLOX (supports OpenGL 1.0 or higher).
