Roblox has been criticized for the release of their "2018 Summer Update" which featured new clothing items and accessories. The update was released on August 28, 2018, and it caused some of these items to be very hard to find. This resulted in many of Roblox's users spending a lot of money on the platform in order to obtain these new items.

ROBLOX released the "Achievements" update on June 20, 2017. This update introduced many new features for games, such as achievements, friends-lists, and more. Players can earn rewards by accomplishing certain tasks within their games and taking a screenshot to get them.

On March 18, 2017, ROBLOX introduced Virtual Pre-Orders which allow users to purchase merchandise months before it is released for general purchases. These items include apparel and accessories for your avatar. On May 7, 2017 ROBLOX announced the launch of a new virtual item known as the Game Ticket which allows players to purchase one game a month for 6 months (at half price). Players must be signed in and have a valid payment method in order to access the store.

On November 7, 2017, Roblox released their first real let's play channel, but it only lasted a couple of months before Roblox cancelled its plans for let's play channels. It stars RandomPlayer as he plays a wide variety of games on ROBLOX, including many popular games such as Angry Birds and Zombieland.

Roblox has been criticized for bombing players with harassing messages that appear on screen. In 2013, The Washington Post claimed that they were able to set up a fake email address in order to send players fake emails. On November 29, 2018, it was announced that they had removed the ability for players to send fake messages and that they were working on a new update that would do this.
